This is not your average 3-bedroom apartment. With a terrace overlooking the hills and the lush green sports ground of Emmaus College, there's occasion to sit back and admire the view from this low maintenance lifestyle haven. This ground floor residence at the prestigious Saxonwood Estate will impress with its towering ceilings to deliver a sense of space, a radiant open plan living room flowing out to an entertainer's balcony, a kitchen with premium appliances including relatively new stovetop and dishwasher, lavish sized bathrooms and 2 secure under building car spaces. Among the host of quality appointments are split systems in both living room and master bedroom, video security, electric space heating, day/night blinds and sliding robes - easy living with all the trimmings. The substantial floor plan includes a private master bedroom with walk through robes and a full ensuite, and the distinction of a large separate laundry. It's time to upsize your lifestyle to the elegance of this east-facing apartment and enjoy the low maintenance ease of a spacious unit fronting beautiful Magnolia and Olive trees. Picture perfect living without a garden to maintain - that's freedom.
