\$880,000

A perfect partnership of excellence and elegance, complemented by an exceptional location, ensures this light-filled residence conveys appeal that's completely on point right now – and will remain so as the years roll on. Instantly attractive lines create a great introduction to impressive spaces for enjoying and entertaining that include a substantial central lounge and a superb separate living/dining area where wide sliding glass doors link seamlessly to a cool covered deck. The desirability, both indoors and out, is undeniable. An open-plan kitchen featuring laminex benches, a stylish island, stainless steel appliances and tiled splash-back delivers the quality that was clearly a driver of this ideal address. Four bedrooms and two bathrooms, including a main bedroom accompanied by an impressive ensuite, contribute to that family focus of a design that's further enhanced by brilliant basement level dimensions offering options for home office, rumpus room, gym, self-contained studio and/or storage spaces. A covered patio adds an extra outdoor retreat on an allotment landscaped for low-maintenance ease and distinguished by a double garage with work-shop area and a separate carport. Proximity to Prospect High School, St Patrick's College, shopping, the Prospect Recreation Reserve and Kate Reed means the setting matches the style of this outstanding property.
