\$1,200,000

- This 4 bedroom family home looks deceptively modest in size from the street but don't be fooled.
- Ideally located on a 863sqm corner block with rear access to waterways.
- Meticulously constructed double brick home with rendered interior walls.
- 3 living areas (lounge, family room & massive entertainment area overlooking back yard and water).
- Spacious kitchen area featuring granite bench tops, slate flooring and 2 x single dishwashers.
- Gi-normous bathroom area – spa bath, shower, W.C., vanity and linen cupboards, making that last minute cold dash for clean towels a non-event.
- Double lock-up garage with internal access to home & covered courtyard.
- Side access to back yard and water.
- Solar panels and ducted air-conditioning throughout.
- Still owned by the original owner/builder family, this home has been a haven to generations for 40 years.
- Potential to modernise, extend, reconfigure or even add a top floor!
