This 4-5 bedroom, beautifully renovated family home, with exceptional floorplan, provides its new owners with privacy and security, fully fenced for kids and pets. There is a distinct mountain cottage vibe with the home boasting multiple living areas, perfect for the large family or entertaining. A large galley style kitchen opens to dining and living, with light and views spilling in from all directions. The kitchen has stone benchtops, induction cooktop, double pyrolytic steam and conventional oven, dishwasher and loads of cupboard space, with direct access to laundry and mudroom. Two lounge rooms both with wood fires, provide plenty of versatility to suit every family. Three bedrooms at the eastern end of the house all share a rumpus room complete with wood heater, large family bathroom and linen storage. Upstairs is a gorgeous light filled space for a fifth bedroom, study, or games room. Further suggestions of a mountain cottage, the master suite, privately accessed by its own staircase, is the perfect retreat. Window shutters provide romantic lighting, a vaulted ceiling, large dressing room and en-suite. Outside features a north facing courtyard, fully compliant swim spa, fully fenced and newly landscaped garden, woodshed, garden shed, drive in-drive out access, and separate entry via Marshall Avenue. This tightly held pocket of Macedon is close to schools, daycare, kindergarten & Melbourne trains. The best of everything with a nature filled outlook and tight knit local community. Move in, relax and let the kids roam free.
