\$270,000

Affordable, solid, neat, spacious and a good location are just some of the reasons to have a closer look at this three bedroom home. The carpeted living room with an overhead fan is kept cosy warm with a Rinnai gas heater and the adjoining family/dining room with polished timber floorboards has a gas heater and a reverse cycle split system air conditioner. All three bedrooms are doubles, the main has feature plasterwork and an overhead fan and the recently upgraded bathroom has a separate shower recess, custom vanity and the toilet is separate. An island bench in the kitchen gives extra cupboard and preparation space and there is gas and electric cooking. Enhanced by a private rear deck, front verandah, safety switches, front and side access, double carport plus a seven by five metre shed/workshop with a combustion heater this home is well worth a look. Property Code: 2950
