\$962,000

What a great time to introduce a one off property such as this to the market! Set on just over a quarter acre block with plenty of yard space, two street frontage, and a big double shed and sparkling pool!! Inside the property offers a 4 bedroom configuration, lounge room and separate meals area off the large galley style kitchen, a stunning outdoor alfresco area overlooking the fantastic yard and in ground pool where you can watch the kids play and swim safely! There is even a separate space for the chicken coop and veggie garden, create your own mini hobby farm, perfect for teaching the kids about sustainable living! The location of the property is quiet and peaceful with easy access to the popular Camden bike track for the morning walks, and also close enough to both Camden town for shopping, Camden Valley Inn for a Sunday arvo get together, as well as both primary and high schools. A real standout in todays market, and we believe it is one that won't be around for long! Come along to the open home this Saturday and see if 2 Myuna Pl Camden South is the one for you!
