Bedrooms: 4

Bathrooms: 2

Area: 4746 m2

Type: House

Brett Lukey

\$1,025,000

Just 2.5Kms from the café strip you will find this standout property of substance that's an absolute one of a kind with its extensive use of finely crafted local hardwood timbers featuring jarrah and Sheoak throughout. The main living area of generous portions oozes ambiance throughout with its open plan boasting both a gas cooktop/electric stove and a wood fired Metters stove/oven for winter cooking and warmth. Stacks of storage with multiple pantries plus extensive cupboard space will not leave you wanting. The lounge has its own comforts with the slow combustion fireplace and theatre sized screen. 2 of the bedrooms are king sized and both benefit from having their own bathrooms. The weather side of the house has a full-length enclosed patio that provides options and outside it's an entertainer's/foodies paradise with the pizza oven/ BBQ gazebo taking centre stage. Mature gardens soften the surrounding grounds which feature some seriously substantial coffee rock walls and stairs providing various levels throughout its 4746sqms. One could easily loose themselves in the most amazing and private secret gardens I have ever seen. Vehicular access to all areas by design with multiple generous sized powered garage/workshop and aviaries are against a picturesque backdrop of old growth karri forest reserve completes the picture nicely. This truly amazing property has so much to offer that I can't put it all in writing rather it can be viewed strictly by appointment so call Brett 0439 100 439
