This generously-sized 3 (or 4) bedroom home is ideal for a family that's focused on togetherness, entertaining, or embracing multi-generational living. Or all of the above! With 2 separate, spacious living and dining areas you can have multiple configurations for casual family hangouts or proper parties, the pursuit of hobbies or working from home, or whatever else your household requires in terms of lifestyle. There's also the option of inviting grandparents or other extended family to move in and have their own slice of heaven here, as the separate wings of the house make a setup like this super simple. The heart of most homes is the kitchen and informal living space, and here it's no exception due to its lovely charm. Whether you enter via the main door or the shopper's entry, you're bound to end up at the breakfast bar chatting with the kids while you put groceries away, snuggled on the couch with a favourite movie on the TV, or catching up over dinner once everyone's made it safely home from work and school. Opening out to the secure backyard and paved entertaining area, it's also a great spot to host a birthday party or regular games nights. The formal living and dining rooms in the front wing of the house can be used for events as well or kept closed for peace and privacy. The activity room in the rear wing of the house doubles as a 4th bedroom, once again making this a versatile home for an ever-evolving family.

Features Include:

- 2005 built brick & iron home
- Convertible for multi-generational living
- 3 bedrooms with built-in robes
- 2 bathrooms
- Front lounge & dining rooms
- Big open-plan informal living
- Well-appointed kitchen
- Games room or activity room (could be transformed into a 4th bedroom)
- Double carport
- Paved driveway
- Secure backyard
- Solar hot water system
