Daron Gumley

\$350,000

Not unlike Mike Tyson, this property will deliver the knockout when it comes to your property search. With so much to offer inside and out, the home is definitely one to view and consider, with features such as: Large open plan kitchen, dining and lounge, all tastefully renovated with the furnishings to complement, and presented neat as a pin. 3 bedrooms, all with built-in robes renovated bathroom, 2 toilets. Spacious rear decking to allow what feels like an extension of the interior, but still gives an opportunity for your entertaining of friends and family looking out to the rear yard. Outside, where to start: I've already mentioned the deck, so let's venture further outside to the pergola, a nice place to sit, or maybe utilise for your garden needs, and if this isn't enough space there is also the garden shed. We can't forget about car storage, and it's well and truly covered with a double length brick garage, work out the replacement of this and it makes the whole package seem even more attractive. The yards are well fenced, easy care and for the enthusiast there is also a potting area at the rear of the garage. Solar panels will help alleviate the rising costs of everyday living, it just gets better doesn't it. Located close to schooling and the George Town Sports Complex, making it ideal for families or couples alike investing in their first home. To arrange a viewing, or wanting more details, please call at your convenience.
