PRICE GUIDE \$597,000

Move your family into this immaculately presented home that features two living areas, three bedrooms and a renovated kitchen. Downsizers will also love the easy ground-level living, and the low-maintenance corner block features an in-ground pool, generous lawn and large workshop. You'll also love this beautiful family-friendly location that's a short stroll to magnificent Sanctuary Lakes Park, moments to Bakewell Primary School and childcare centres, and just minutes to major shopping & facilities in the Palmerston CBD. The home occupies a prime high-set position with a large front lawn, with entry via the covered front porch. There is an elegant bay window to the separate living area at the front of the home and then flows through a central hallway to the family/dining area and adjoining kitchen. The family/dining area opens onto the extended outdoor entertaining patio, and the renovated kitchen will delight the home chef with waterfall-edge stone bench tops, premium cabinetry in contemporary white, quality stainless steel appliances including a dishwasher, a full sized walk-in pantry, and stylish timber-look flooring. The master bedroom is privately located off the living area at the front of the home. It also features a lovely bay window, plus a corner walk-in robe and a well-presented modern ensuite with a generous corner shower. There are built-in robes to the good-sized second and third bedrooms that are located off the family room and capture abundant natural light. The sleek modern main bathroom with shower over bath, floor-to-ceiling tiles and separate toilet is also located off the family room at rear, and the well-equipped internal laundry features external access. You'll love the fenced in-ground pool that stars in the low-maintenance backyard, and there's plenty of space for pets and active family playtime on the generous side lawn. The home is also tiled and air conditioned throughout for fresh modern living, and neutral contemporary tones are the ideal canvas for your personal interior design touch. A double integrated carport at front joins extra parking on the wide double driveway, and there is side access to a freestanding lock-up garage or workshop at rear.
