In need of a little TLC the dwelling on this large 6873m² (1.698 acre) block has potential. Set well off Bluff Road at the back of the block, the house consists of open plan kitchen/dining/lounge, two bedrooms, bathroom and separate toilet. Bluff Road has become a thriving little outer suburb of Whitemark and is only walking distance to both the airport and the beach, and only minutes to township of Whitemark and the local school (Kinder-Year 12). There is also a large shed incorporating a rumpus room and two car garage. The substantial size of the block lends itself to the possibility of the erection of more than one dwelling (STCA). This block has both town water and electricity available at front of block to be connected. The property could be beautifully landscaped with several large blue gums already growing on the property.
