\$2,250,000 - \$2,450,000

A vision of glorious Federation architecture, "Wyndella" (circa 1905) is a rare and magnificent four/five bedroom, two bathroom home revealing peerless grandeur. Melding spectacular pressed metal ceilings with exquisite leadlight, elegant fireplaces, handsome polished floorboards and dream dimensions, it's a residence of rare distinction. Beginning with a distinguished hallway, where sturdy columns embellish a soaring archway, the abode soon inspires particular awe with a feature ceiling showcasing a towering alcove, adorned with extraordinary details. Versatile in design, the layout further incorporates several spacious bedrooms, a living room, a well equipped kitchen that overlooks the luxuriously large family and dining domain. Bathed in northerly light, this very generous open domain includes a study nook and flows out towards the rear garden. Approximately 1202sqm, the extremely expansive allotment boasts a prime northerly rear aspect and includes storage and a potential-rich bungalow. Further distinguished by bay windows and a return verandah, providing direct external access to a main bedroom furnished with walk-in robe and ensuite, Wyndella is complete with heating, cooling in rear living area, a central spa bathroom, side driveways, horseshoe drive and automatic double garage. Utterly exceptional, this period beauty is prestigiously positioned in a fine street, zoned to Preston High, a stroll to Gilbert Road tram, trains, buses, popular Preston Market, H.P. Zwar Reserve and schools.
