Large blocks like these in this location are hard to find. This property comprises 3 lots totalling 3353 m² to be sold as one large parcel. If you want to leave your car in the garage, you can walk to almost everything you need from this spot. The local pool is right opposite and only one block away is the beautified foreshore that includes skate park, plenty of picnic areas and free water park for the kids. Take a pleasant stroll along the jetty and when the tide is in you may even spot some sea turtles or a stingray. The CBD and local pubs are also only moments away. You definitely have options with this property and subject to Council approval, maybe units, commercial premises or just plenty of land for a lovely residence SO close to the beach. See Peter to inspect this one.
