\$515,000

This home is a terrific opportunity to enter the upper Blue Mountains property market at an affordable price point. Set on a manageable 476M2 gently sloping block this home will respond well to a loving new owner. There are two well proportioned bedrooms, and a roomy kitchen/dining/living area that looks over the front gardens. The bathroom will need attention before you move in, but the good thing is a fresh bathroom is an absolute pleasure when you are doing other renovations to the home. Just the thing to spur you on to finish the rest of the house. There is a good sized carport and a decent shed at the rear too. So come along, opportunities like this do not come to the market often and will not last long! • 479M2 Block • Instantaneous Gas Hot Water • Slow Combustion Heater • Close to many of the renowned bush walks
