Coming home to your property at Lamington is like arriving at an eco – retreat. You can't help but relax, taking in the natural beauty of your surroundings. This property of 25 acres has the mountains of Lamington National Park on one side and Christmas Creek meandering along the other. The land is cleared, sloping very gently towards the creek and well - fenced into five paddocks. It boasts an attractive brick home with a front verandah overlooking the creek, towards the west. The spacious, country – style kitchen features an electric upright stove plus a Crown cooker. The master bedroom has a walk in wardrobe and the other two bedrooms each have built ins. The open plan lounge and dining area is air conditioned and there are timber floors throughout. A double carport adjoins the house. There are three sheds on the property. The first shed comprises three bays with a concrete floor and roller doors front and back for drive – through access. Two, 5,000L rainwater tanks are connected and there's a concrete washbay at the back. The second shed is steel – framed and primarily used as a workshop. It has four bays (one with concrete floor and lockable roller door) and power. The third shed has a timber frame and is presently used as a horse shelter. It could be used for machinery/hay storage or converted to stables. Water may be pumped from the creek for stock and domestic use. A firefighter pump may be used to lift water to a 7,000 gallon tank near the top boundary. Water is gravity fed to water troughs in the horse paddocks and to taps around the garden at the house. Three phase power is available at a pole near the creek. If you don't mind being a little out of town in order to enjoy such a picturesque setting everyday, then come and take a look at 20 Haack Road, Lamington. Contact Danny Bukowski on 0427 007 116.
