John Hadley

\$259,000

The current owners have recently renovated the kitchen and bathroom so the expensive 2 rooms are done already. This home features 3 bedrooms, separate lounge, 2 split system A/C's, office nook and as I've already mentioned modern kitchen and Bathroom. Outside the property has a single garage, 2 single carports, rainwater tank and pump and 3 garden sheds all with concrete floors and 2 with power. The home has been vinyl clad, insulated and had a new roof all in the last 15 years or so. Just outside the back door is the laundry and 2nd toilet. Book your inspection today by contacting the selling agent. More photos, video and the floor plan are coming soon.
