\$1,555,000

Neighbouring Ford Park and the Darebin Creek in a family-friendly neighbourhood, this four bedroom, single level domain combines sublime, light-filled spaces with contemporary designer style for a successful, low-maintenance lifestyle. High ceilings are the first indication of the property's extensive scale and scope, which includes multiple living zones, oversized dimensions, and generous east-facing outdoor entertaining. The design is crisp and contemporary, with a predominantly neutral colour palette punctuated by the rich, earthy tones of hardwood timber flooring. Stone preparation benches and Merbau decking add natural elements to the space. Positioned in the heart of the home, the lavishly appointed kitchen boasts a galley design framed by a central serving island and a full-sized scullery. Accommodation comprises four bedrooms and three bathrooms in total, with one being a privately positioned parents' retreat with WIR and ensuite. Features include an extended double-garage with internal access, ducting heating & evaporative cooling, solar hot water, landscaped exteriors with in-built irrigation, brick veneer, strong roof tiles, and coated driveway & garage floor. This one year-old home has as-new appeal, which is underscored by a wonderful position within reach of Northland SC, Preston market, the Austin Hospital, Heidelberg station, and Burgundy Street shopping district. Nearby the local Aldi supermarket, Bell Street Mall, and Bellfield Community Hub, this property ticks all the boxes for both prestige, possibility, and position. Photo ID may be required for entry of Open for Inspections.
