\$625,000

This is a conveniently located weatherboard home with three generous-sized bedrooms (two with BIRs) and a spacious living room with a Rinnai gas heater. The light-filled kitchen offers ample storage cabinetry and a freestanding electric oven. The refurbished family bathroom is well-appointed. The east facing rear garden is quite large and there is a garage/shed/workshop. This home needs some cosmetic attention but has been re-roofed, appears structurally sound (no cracks), has lots of natural light, well-proportioned rooms, and is in a great location. This is ideal for a FIRST HOME BUYER. The position is everything in Real Estate, and this home is in a great position, A lawnmower, some paint and a bit of imagination can turn this from a good property to a highly desirable home.
