Not even the best photos or video can capture this piece of paradise for what it is. A beautifully quaint yet modern cottage style home, set amongst just over an acre of gardens to explore and relax in for hours on end. Situated at the end of a quiet road with views of a natural spring fed lake, you have ample peace and privacy. This stunning home has 3 bedrooms, 2 bathrooms and 2 living rooms. The master bedroom is spacious, with a walk-in robe and ensuite. The bedroom and ensuite are designed to take in the garden, giving you the feeling of being outdoors - simply a stunning and unique quality feature of the home. The open plan kitchen and front living area has character with the high vaulted ceiling and an ample light filled space. The rear living area leads you out on to the large entertaining deck overlooking the gardens and creek. The size of the land has an added feature of being wider than average, with two driveways and plenty of space for the caravan and/or boat. There is a separate shed on the property currently being used as an art studio. It has power and is open plan with plenty of light and creates a beautiful peaceful space to create, study or just hang out.
