\$676,000

Proudly standing on a large 578sqm (approx.) allotment, this 3-bedroom clinker-brick home offers a comfortable and modern presence with an exciting array of possibilities to transform and expand. A blue-chip central Frankston locale plays host to a canvas of opportunity to enhance its existing charm, extend upwards or outwards, or embark on a brand-new home build or multi-site development (STCA). A blend of classic charm and modern comfort begins in a sun-filled carpeted lounge, seamlessly transitioning into a spacious kitchen and dining area with stainless steel appliances and stone-look benches. A venture down the hallway reveals three large bedrooms around a renovated bathroom with a shower-over-bath, plus a laundry with an additional shower and a separate toilet. Sliding doors from the lounge unveil a sprawling landscaped yard beside a gated double carport/entertainment terrace, adjacent to a freestanding bungalow/shed with limitless potential as a private home office, creative studio, or versatile DIY workshop. Finished with split-system air conditioning, it sits in a desired location near everything Frankston has to offer, from its large shopping centres and chic cafes, to its easy freeway access and shimmering bayside beaches.
