Auction Location: On site A home of inspired design in a converted Federation shop, this transformation makes the most of the 5m wide footprint and freestanding NE aspect, for a home of light and space with a flexible floorplan. An 8m living/dining entrance sets the scene for what's to come, flowing to a new kitchen by Cantilever Interiors, plus a timber-decked courtyard with potential for parking (STCA). A unique yet adaptable space, metres to transport options, cafe pockets and parks.
