AUCTION | \$1,200,000

Bathed in natural light, this spectacular newly finished, custom built home embraces its waterside location with elegant features, timeless design and a superb feeling of space and luxury. The crisp white, extra height interior is revealed from the wide entranceway with wainscoting panels leading you to the north facing kitchen and living space. Wide panel oak flooring continues throughout the open plan kitchen and living area brightened by the north facing aspect. Here, the kitchen island is a perfect entertainment space, with additional stone topped workspaces wrapping behind the kitchen hiding a pantry for prep and storage. Subway tiles contrast with the slimline profile of the cabinetry and feature pendant lighting defines cooking and dining zones. Finished to an exceptional standard with incredible attention to detail, the floorplan is generously proportioned with living including a rumpus and a family room opening directly to the al fresco dining area creating a flowing entertainment space. The calming, coastal palette continues within the robed bedrooms and the master which includes an ensuite with chic tiling and fixtures. An immaculate example of good design and thoughtful presentation, this home is just minutes away from enjoying the coveted Lonsdale lifestyle yet quiet enough to feel secluded with your own water front view.
