Designed and built by citymaking architects Bates Smart; architectural excellence, interior design, and urban thought come to fruition in this breathtaking inner-city address. Its 1908 Art Nouveau façade has been thoughtfully restored as the design pays homage to original textures and forms while interpolating contemporary elements for a unique fusion of the classic and modern. A material palette consisting of white stone & solid hardwood flooring create a light and luxurious atmosphere, captured by crisp, clean lines, and essentialist spaces that do away with superfluous flourish. Two bedrooms are joined by a master ensuite and main bathroom elegantly finished with floor-to-ceiling tiling, frameless rainfall showers, floating vanities, and polished tapware. A suite of luxury amenities include sumptuous dining, lounging, & entertaining areas, an outdoor BBQ terrace, and the St. James Club on level 27 conferring sweeping city views, an opulent residents' club, private dining room & lounge, library, state-of-the-art gym, and media room. From an acclaimed position in the city's heart, walk to boutique cafes, restaurants, and local landmarks, while remaining within steps of the Botanic Gardens, South Wharf, and Melbourne's arts precincts.
