\$295,000

This incredibly beautiful property is far enough away from all neighbours but still only 5mins to the centre of the township of Wondai, giving you that ultimate bush retreat feel. The property consists of a total of 134.79 acres (54.55HA), 90 acres of which is flat grazing country that has been selectively cleared with rows of established Olive trees. The back portion of the property, which is approximately 45 acres, is heavily timbered with Australia's finest Gum and Ironbark trees. A private forest in your own backyard? Nothing could beat that! And with your own private, Australian forest comes the water supply in the form of 2 large dams with a seasonal creek running through one corner of the property, as well as two large water tanks. Both dams have large catchment areas from the neighbouring properties. Power is connected to the land with a builders pole already in place. There is boundary fencing on two sides only. No town water or sewerage services are available. For more information, Give Alex Haig a call on 0429 686 145 or Jess Maier on 0426 822 184.
