The embodiment of Brighton exclusivity, Sera Brighton in the heart of Dendy Village is the key to lifestyle perfection in apartments by Lowe Living. Alongside Warren and Mahoney, interiors envisioned with Bec Judd and landscaping by eminent Jack Merlo, Sera Brighton is the embodiment of exclusivity and lifestyle perfection. Living zones transition through full-height doors to secluded balconies for perfect indoor-outdoor connection. Soft tones of European Oak flooring and light-oak joinery add timeless character. Outdoor havens feature landscaping by Jack Merlo, framing balcony views and creating spaces that exude comfort. Natural stone benchtops and splashback complement the soft grey and light-oak cabinetry on show in the kitchen. Energy-efficient Miele appliances include electric induction cooktops, while the island bench with graphite tapware and detailing takes centre stage. Bathrooms are elegantly styled with natural stone topped vanities that celebrate textural splendour as light-oak joinery and graphite tapware unite with glazed vertical tiling. A range of Environmentally Sustainable Design features complete Sera's green living experience. Double-glazed thermally broken windows and solar panels feature in the building's energy efficient profile. Apartments enjoy optimal natural ventilation and light, energy and water efficient appliances and heating and cooling systems with minimal environmental impact.
