\$1,450,000 - \$1,550,000

Brand new and brilliantly positioned, this is where prestige style meets family lifestyle. Just completed amongst the parks and schools of this in-demand family locale, this benchmark four bedroom, 3.5 bathroom home is one of the newest, biggest and best with a sunny home-office area on entry, a super-sized family zone stretched out to the rear, and a large central lounge at the heart of the first-floor. Offering up-to-the-minute accommodation with a vast treetop master domain (featuring a huge wraparound walk-in robe and spacious ensuite), this clever dual-suite design goes above and beyond with a second large ground-floor suite (also with a private ensuite and walk-in robe); perfect for adult kids, in-laws or a future alternative master. Built to the grandest proportions, this impressive home offers space to retreat in the master-domain, room for a study space in most bedrooms, and a deep dual-vanity for almost all of the fully-tiled bathrooms. Offering all the accoutrements for an upscale entertainers' life with an elite Miele appliance kitchen (with dual ovens), a big butler's pantry (plus a huge laundry), and a full BBQ kitchen (with double drinks-fridge), which is covered with a clear roof. Even the alfresco area is immensely proportioned. Specified to the highest quality with the latest stone benchtops, the lightest wideboard floors and plushest premium carpets, this climate controlled and double-glazed home is secured by video intercom and alarm with at least two car parking spaces including a deep auto garage. Even the location is big on amenity; a sprint to Bricker Reserve, a splash to RSEA Park's pool and wellness facilities, with schools all around, the station within a minute, and Bayside beaches in reach!
