AUCTION

At 29 squares (270 square metres approx.), this oversized town house offers the kind of space you'd expect in a home in the school zone for Brentwood Secondary (STSA), just a 5min drive to The Glen. With 4 bedrooms, 3 bathrooms, a home office and its own street frontage and driveway, this is a family sized setting that still shines like new – having been built in 2019 but not occupied until 2021. Above average in every way, this home features high ceilings on both levels, the convenience of a guest bedroom and adjoining bathroom on the ground floor and a back yard big enough for playing sport or fetch with the dog. A bright and airy open plan kitchen and family room gives you room to entertain in style with an elite kitchen and walk-in pantry at your service. Parents will appreciate a master bedroom with lovely north facing light and street frontage, in addition to a luxury bathroom with a freestanding bath and monsoon fixed shower head for rainfall style relaxation. Full height 3D white tiling brings dramatic edge to the bathrooms, with central heating, evaporative cooling, CCTV security and alarm, NBN connection and an oversized single garage with internal access adding to the impressive feature list. Monash Fwy and Eastlink provide connections to the city and the coast, nearby Monash University, Monash Medical Centre and the new Victorian Heart Hospital, as well as popular parks, playgrounds and picnic spots including Central Reserve and Jells Park.
