20ML Water Allocation, Dimbulah, Qld 4872

Type: Other

Mareeba Property Office

Contact Agent

With our region being largely reliant on water supplied by the Mareeba-Dimbulah Water Supply Scheme, having a water allocation is highly regarded by those associated with the rural economy. If you are looking to add to your water bank, here is a great opportunity to purchase water allocation at today's market value. 20 megalitres is available for sale. With our region benefiting from fertile, arable soils, excellent growing conditions for a range of cropping options, and the Tinaroo Dam providing water on tap to our district via a channel system, this commodity is a valuable investment. For further information or to enquire about WATER ALLOCATION for sale, please contact John Falvo at Mareeba Property Office.
