\$525,000

Step into a world of timeless elegance as you explore this 1900s weatherboard home. The journey begins with a tiled hallway, where antique light fittings add a touch of vintage charm that sets the tone for the entire house. The lounge boasts a decorative fireplace that exudes character, and one of the bedrooms also features this beautiful, classic detail. In the heart of the home, you'll find floorboards that flow from the light and bright kitchen/dining area, into the laundry and bathroom. These floorboards not only offer durability but also enhance the aesthetic appeal of the space, which overlooks the fully fenced backyard. As you step outside, a good-sized storage room off the back porch provides the practicality that every homeowner desires. And, of course, we can't forget the lovely front porch that welcomes you home with all its original details intact. Stay comfortable year-round with the included heat pump, and enjoy the convenience of off-street parking. But what truly sets this home apart is its prime location. You're just a short walk away from the CBD, the University, the Seaport, and the picturesque Riverbend Park. This home is a rare find so close to the city. Contact us today to schedule a viewing!
