Kate Ashton

\$230,000

Are you looking for your first or next property in a regional town? Well, this one should be inspected if you are in the market to buy. Offering a concrete brick three-bedroom home with space for the family in the community of Avoca and great size rooms. Built around 1950, one family has owned it since then; now time to change it to be yours. The dining kitchen is central and spacious ready for the hub of the home with electric cooking - but the oven doesn't work, and Lounge has an old gas heater, but we are safe to say that it doesn't work there for you. Really need to look at heating, cooling and cooking appliances from the beginning. Generous block has veggie gardens, misc sheds at the rear, and a great collection of sheds for storage or tinkering. View of the beautiful Pyrenees ranges from the rear yard, carport alongside the home and garden is ready for some weekend projects so you can entertain in the Spring and summer months outside. Carport alongside the home and space for parking extra vehicles - ready for your inspection.
