\$740,000

An absolute delightful purpose built home is presented here for sale. With several architectural features including high cathedral ceiling, central fireplace and well designed, this home is ready for you. The configuration here allows for this to be either a three bedroom, two bathroom home or alternatively can easily be turned into a five bedroom, two bathroom home with minimal works. With great feature brickwork to the external and internals this is a very strong and well built home. There is wrap around verandahs to the front of the home and also there is well protected and exceptional rear patio which leads from the second living area and adjoins the large double shed/garage. With minimal lawns and low maintenance gardens this is a home which you can easily live in without too much maintenance required to the gardens. This also does apply to the homes maintenance as all the external painted (windows and doorways) have recently been repainted as well as the internal trims (cedar doors, architraves and skirtings). Inspections are a must here as this home has too much potential to leave to chance. So to arrange your immediate inspection please call Team Alby on 0499 015 552. Your inspection will not disappoint.
