\$580,000

A sunny block, easycare design, modern updates, and a central lifestyle location are just a few of the reasons why this single level home won't be on the market for long. You'll be hard-pressed to find better value too. An open-style living room includes a cosy combustion fire and AC, there's also AC in the master bedroom, the bathroom has been perfectly renovated, and the kitchen is stylish and ready to go. Two outdoor areas (one screened, one covered) provide all-season options for alfresco entertaining, and a tandem carport, workshop, and storeroom will appeal to the handyman. A cul-de-sac address 650m from the heart of Edgeworth's vibrant CBD is the icing on the cake. - Traditional single level design with three bedrooms located on a side wing- Drive-through 9.6m carport boasting an attached storage room and workshop - Spacious living room and adjoining dining area appointed with easycare floor tiles - Updated kitchen and a newly renovated bathroom flaunting a stand-alone bath - Two of the three bedrooms feature a built-in wardrobe - Lawned backyard dotted with mature trees and established shrubs - Natural bushland border to the rear provides a tranquil and leafy outlook - Less than 2km to Stockland Glendale and its cinema complex - Zoned for Edgeworth Public School (1.1km) and Glendale Technology High (1.8km)
