This home is sure to impress, soaking up the beautiful views from the top floor balcony, watch the sunrise with a cup of coffee and sunset with a glass of bubbles. The lower level has two bedrooms both with build-in robes, a bathroom, separate laundry with plenty of bench space, and a tiled living area that looks out to the covered alfresco and low maintenance yard. The upper level is the hub of the home, open plan living, overlooking the kitchen/dining area with large floor to ceiling windows looking out to the ocean, and natural parklands. Master bedroom offers a generous size walk-in robe, ensuite with corner spa bath, and direct access to the expansive covered balcony and the ocean view. Upstairs is also a power room for those who will come to visit. Lower maintenance yard, with outside shower, double lockup garage, solar panels, and multiple A/C units throughout the property. Small pet will be considered.
