Please call for details

Atop the hill on Swanbourne Street surrounded by bushland and birdlife, this premium lot occupies an elevated and tranquil position with stunning views across the boat harbour to the ocean and islands beyond, and the Port city's most recognisable landmarks. Located across the road from Stevens Reserve in a desirable pocket of Fremantle with a charming mix of modern and historic homes. This is an ideal platform on which to construct your dream home with clear ocean glimpses from ground level and open ocean and island views available from a second storey, perfectly placed to capture the sea breeze. The retaining wall has already been completed, and titles issued so you can realise your vision to build your ideal home. A short stroll along Swanbourne Street will take you to Monument Hill Park, a war memorial surrounded by rose gardens offering stunning 360-degree views over Fremantle. Walk to Wray Ave for fresh produce from local grocers, butchers, and bakeries, and a five-minute drive will take you to Fremantle city centre, South Fremantle, and local beaches. In addition, public transport, several schools, child-care facilities, and medical practices are all within easy reach. Don't miss this rare opportunity to build a modern, expansive home in one of Fremantle's most tightly held historic precincts. Please call Michael Harries on 0434 076 229 for further details
