\$1,330,000

Few apartments have wide frontages in these very modern buildings; this truly expansive residence is situated on the 21st Floor, just below the penthouse of the 'Aspire' building. It is central to almost everything in the city; yet in the middle of a quiet and hip pocket just behind Hyde Park. The floorplan of the apartment is nothing but superb, with a wide living room opening to the balcony; two large bedrooms with wall-to-wall wardrobes, the main with a great ensuite. Timber floorboards, floor to ceiling windows with external architectural blinds, quality fixtures and fittings bring a high level of luxury to this well sought after building.
