\$529,000

Newly renovated three bedroom family home with rural backdrop beyond the fence. This property has been lovingly renovated with an upstairs laundry and tidy new kitchen that slots into the dining and lounge areas. The grand bathroom is decked out with top-quality fittings (all under warranty) and floor-to-ceiling tiles. Downstairs, there's a second toilet and ample storage with access via two garage doors, all on a solid concrete slab. Built-in wardrobes frame the window of the spacious main bedroom, which is lined with timber floors. Solar panels will help ensure a top-of-the-line Kelvinator reverse-cycle air-conditioner keeps this home at a comfortable temperature. Those keen to enjoy the view outside will be able to watch the sun go down from the back deck. Despite being affected by the 2022 flood, this house has been completely re-cladded and beautifully restored for the next owner to appreciate. Contact Harry Wilson to find out more, book an inspection, or find out when the next open home will be.
