\$365,000

Whether you're starting out, investing or looking to downsize, look no further. Step right into this gorgeously finished, well appointed, sun-filled apartment designed by renowned architect Fender Katsalidis. A one of a kind apartment in a prime location, beautifully renovated, boasting high ceilings, open plan living and unobstructed, breathtaking views. All new oak hybrid flooring which is completely waterproof allowing an ease of clean up with young kids or pets. This is perfectly paired with newly installed VJ panelling, creating a stand out feature in the living area and bedroom. The apartment has been fully repainted, new bohemian inspired flooring in the balcony and cafe blinds to further cancel out road noise and stopping any dust from coming in. All of these added elements create a stand out space in comparison to alike apartments on the market. With double glazed windows and bedroom that's tucked away from the main road, you will be sure to get a good night's sleep! Stay cool in summer with the large Mitsubishi split system aircon and fully block-out blinds and warm in winter with the abundance of sunlight that is let in through the two large windows. The kitchen is fully equipped with stainless steel appliances, gorgeous caesarstone benchtops with waterfall effect, a dishwasher, and a great layout. The bathroom boasts a large fully tiled shower, wall to wall mirror, accent tiles and a functional vanity with great storage. Tucked away neatly in the bathroom, disguised as a cupboard is a European laundry, boasting its own sink, bench-top and storage shelves. Worried about an apartment not having enough storage? Think again! Comprising three cupboards, laundry storage, a large mirrored wardrobe with dual hanging rails and shelves if folding is your preference and a large storage cage suspended above your very own car spot. Your car will be safely nestled away in a locked up underground carpark. Step right into this apartment with ease of mind that it is safe and secure, with CCTV all around the premises, camera intercom and key fob entry to gain access to your level. This allows peace of mind that no uninvited strangers will be lurking around. Now let's talk convenience. With Westfield Knox Shopping Centre just a stone throw away, many hospitals including Knox Private, Maroondah, Vermont Private, Angliss Hospital and a police station right next door. Many restaurants, recreational facilities and very close access to Eastlink.
