Perfectly positioned only 15 minutes from the beaches of South West Rocks, a similar distance from the convenience shopping of Kempsey and half way between Sydney and Brisbane. Approximately 40 Hectares or just under 100 acres, it is unusual to be able to find the quality of the Macleay River Flood plain with the refuge of a flood free hill and a very strong carrying capacity. For those with short memories, there will be another flood, we can't predict when but we can guarantee you that it will happen. For those effected by floods then this block is like winning the lottery, grass and dry feet. Even in a dry time this is an exceptional property. The property enjoys a dwelling entitlement, has 2 frontages and direct access to Clybucca Creek. For anyone looking for a lifestyle change, Clybucca is close enough to live in town and still enjoy your rural pursuits.
