\$400,000

With a vacant land size of 1216sqm and being just one street back from Castletown Quays, this residential building block is in a prime location for development. Zoned R20 typically allows for residential development, indicating potential for constructing two dwellings per 450sqm on the site. This zoning suggests medium-density housing, which can be a lucrative investment given the demand for such properties in many areas or alternatively, subdivide to create two strata lots. Sold on an as is - where is basis.
