You don't get much closer to the Kangaroo Flat shopping precinct than this 3-bedroom surprise packet. As you walk through the front door you are greeted with the large main living room with a grand arched ceiling. The partially updated kitchen looks back towards the main living and is ideal for entertaining. It comes complete with gas appliances, ample storage plus plenty of bench space. The 3 bedrooms are found to the left of the home surrounding the bathroom, all complete with built in robes. The middle bedroom is quite sizeable, allowing room for a split study or perhaps parents retreat. Outside the home you find a secure yard including wide side access with plenty of room for a caravan, boat, trailer or all 3. The large shed to the rear of the home is powered and makes a great finishing touch to the property.
