\$1,600,000-\$1,630,000

Rising grandly above the city's skyline and benefiting from a world class level of amenity, this magnificent, 3 bedroom plus study apartment occupies a staggering 135 square metres of the 22nd floor of the highly revered and architecturally brilliant 'Collins Arch' building. A modern day icon with a landmark skybridge connecting its two towers, the building has been brilliantly crafted by Woods Bagot to soar above the CBD's most prestigious street, exceed expectations and stand the test of time. A broad northern exposure introduces glorious natural light while framing a panoramic outlooks of Melbourne's surrounds, while a vast open-plan kitchen / dining / living merges the timeless allure of evocative stone benches with stainless steel Miele appliances and rich Oak flooring. Effortlessly, the open-plan flows outdoors to a captivating entertainers' terrace that draws plenty of afternoon and evening sun. A well-conceived design reveals a main bedroom with a fully-tiled designer ensuite and walk-in robes, all of which is themed to the central bathroom. Fully secure with video entry and a concierge, the apartment also features central reverse cycle heating and air conditioning as well as basement parking and storage. Designed for lifestyle, this is once-in-a-lifetime building defined by its 3-tier vertical gardens, while offering access to a fully equipped gymnasium, a 25-metre swimming pool and yoga studio as well as private dining with kitchen, a lounge and poolside entertaining. This is an unbeatable location near all key city attractions, most notably the Yarra River, Southbank, Crown Casino, Marvel Stadium and Docklands, as well as Flagstaff Gardens, Southern Cross Railway Station and multiple tram routes.
