Talk about a unique property! The original builders of this period style "Edwardian" home designed a one of a kind property. Retaining most of its original features, this full brick and tile home screams potential. High coffered ceilings, stained glass bay windows, ornate architraves and polished Kauri Pine timber floors but... its all about the position and potential. 13.84m frontage to the centre of Brighton-Le-Sands with level block and ready for your imagination to run wild. Renovate or demolish... Restore or redevelop... Make no mistake... this property will be sold!
