A very rare offering in a popular North Warrnambool location, is this wonderful family home. 23 Allan Street offers three bedrooms with an ensuite and WIR to the master. A large living room spans the front of the home and captures the northern sun. The timber kitchen and family meals area is designed for entertaining as it flows out to the protected and spacious outdoor living area, which will be a very popular spot to enjoy with family and friends. Externally there is a double garage with secure undercover house access plus a very wide block frontage offers space for those wanting to store a caravan or potentially construct another shed, subject to approvals. The instructions here are clear that the property is to be sold at the auction, so if you like all that is on offer, an inspection is a must!
