\$490,000

Quietly tucked away in this sought after pocket of real estate is this ideal family or investment home perched on a corner block. Great location so close to the ring road for an easy commute up the highway. Also within an easy walk to The Village, Shell Club and numerous recreational reserves. Stepping up toward the entry is a north-facing timber deck ideal for the morning coffee or afternoon BBQ. Come inside and the light and space is impressive with the typical lounge and dining that is spacious and adjoins the open-plan kitchen area. Through the hallway are the three bedrooms and a beautifully updated bathroom giving you a hint of what is possible in the kitchen. Step outside and the private undercover entertainment area is both ample and convenient off the back door. It leads to a large garage that faces directly onto the street. Easy home to live in or rent out as is but also fair to say there is some scope to add your personal touches. The position is perfect, price ideal and potential obvious.
