Entry is via the lower level, this level of the home is spacious and filled with natural light - and a carefully considered floor plan includes a second living space as the hub of the downstairs area, the perfect place for the kids to relax. The expansive open plan living, dining and kitchen allows for integrated family living. The views from the bank of living room windows of the leafy street visage give a sense of elevation, light and space. A handy study nook is located off the living space. The living room flows seamlessly to the massive front deck - the perfect place to entertain family and friends while enjoying the leafy views. Similarly, the dining room flows to the picturesque back verandah, overlooking landscaped gardens and adjoining the 8x3m pool alongside the home. The modern look suspended concrete slab surrounding the in-ground pool is a spectacular addition and focal point of the home. Located at the end of the pool is a relaxing covered area, a perfect spot to read a book while the kids splash in the pool and additional lockable storage room. Also located on the upper level is the stunning master bedroom. Bright and airy with access to the front verandah via large French doors.
