A Beautiful Balance of Family Lifestyle & Luxury

Spectacular in terms of scale, luxury, and refinement, this stunning near-new residence is a celebration of modern design with family-focused luxury set against east-facing gardens and a pool backdrop.

Hard-wearing Karndean flooring, stone finishes, sharp geometrics and soaring 2.7m ceilings encase indulgent living spaces as the entrance hall fans out onto a sublime living and dining zone awash in natural light and poolside outlooks.

A gourmet kitchen is dressed in stone, flaunting premium appointments and a large walk-in pantry with laundry access. Double-glazed glass sliding doors open onto an undercover terrace and landscaped gardens for superb alfresco entertaining.

An upstairs lounge joins three magnificently appointed bedrooms characterised by their king-sized dimensions, leafy outlooks, and private accommodation. The downstairs master suite features WIR and a private bathroom with a heated towel rail, frameless rainfall shower, and floor-to-ceiling tiling.

In a secluded leafy enclave across from Wantirna village and down the road from Westfield Knox, this home is laden with luxurious additions, including an oversized double garage with workshop and internal entry, study, zoned ducted heating & cooling throughout, ducted vacuum & kitchen vacuum vent, gas fitted BBQ alfresco, and an automated Astral Operation System in the pool.
