This very neat weather board home would make an ideal first home or for someone looking to move to the country. The home features 2 double bedrooms and a sleepout, large lounge with ref A/C and gas heater, a 2 part kitchen, with the main having an electric stove plus a wood stove and plenty of storage and bench space, the second part has the sink and more cupboard and bench space. The bathroom is also very neat with a classic vanity and a shower over bath. The veranda has been filled in to create a laundry and toilet. Outside the concrete drive way leads to a single carport and a single garage and behind that is a very rustic storage shed and another small shed. Make the move to Dimboola and enjoy the Wimmera River and the Little Desert National Park while still having access to public transport to either Melbourne or Adelaide.
