\$657,000

Built just last year is this modern family home in the new area of Kingston, opposite the Brunswick River reserve and metres away from a grassy park! Perfect for those with kids attending the local primary school which is only a short walk away. The home features a large open living area and sensational kitchen with stone benchtops, large hidden walk in pantry and extra bench space. Reverse cycle ducted air conditioning is a feature throughout. The spacious master bedroom has a walk in robe and great ensuite while the 3 minor bedrooms are great sizes with built in robes. Outside is a monster of a patio and large backyard in which you can easily add a big shed or pool. There's side access for boat or caravan parking behind the gate and undercover. The double garage has extra space for trailer/motorbike parking or use as a workshop, plus there's a large storage room. Ready for immediate possession - don't wait to view
