\$550,000

Discover the untapped potential of this classic three bedroom home, perfectly situated for privacy and convenience within walking distance of schools, shops, public transport, parklands, and walking trails. With gorgeous timber flooring underfoot, the home opens to a lounge with wood fuelled Firemaster heater, and dining area. The updated kitchen, seamlessly connected to the meals and living areas, showcases the true potential of the home with stunning waterfall edge stone benchtops, an intricate marble mosaic tiled splashback, Bosch dishwasher, 900mm oven/cooktop, soft close cabinetry, and a super spacious butler's style pantry incorporating clever use of the internal laundry. The bathroom is well designed to provide ensuite access to the main bedroom, with separate powder room amenity. Outside, a large backyard beckons with a covered outdoor entertaining area with pond and fernery, perfect for hosting weekend BBQs and gatherings. Additionally, a rumpus/studio off the garage presents excellent use as a teenage hang out, man cave, work-from-home office, or art space. Includes ducted heating, split system air conditioning, exterior security shutters, garden shed, woodshed, double carport, garage, and plenty of off-street parking. All of this is on a fully fenced 648m² (approx.) presenting endless possibilities for expansion, enhancement, and personalization (STCA).
