This is one to really test your abilities. Here we have a 4 bedroom cottage style home needing a new owner to give the property another chance in life. The property has had a fire in one of the front bedrooms, and now no longer has power connected. Otherwise the home has some nice original features like 12ft ceilings, pressed tin ceilings, and open fireplaces in 2 bedrooms (working condition unknown) Outside the home is situated on a large 1005m² approx. block, with side lane access. It is highly encouraged buyers conduct their own due diligence.
